TOUREKA
Your complete guide to creation, management and execution of tours.
MARAEKAT
INFOTECH LTD.

WELCOME TO TOUREKA

Your complete guide to creation, management and execution of tours. Track leads, create itineraries and generate invoices at the click of a button. Toureka organizes your data systematically for smooth running of operations.

PRODUCT OVERVIEW

Complete backend software designed to enable tour operators automate their tour handling process. Create itineraries, customize tour packages, keep track of supplier rate fluctuations, quicker and more accurate quote generation, client relationship management, complete accounting module all combined in one. The tour management software is browser based and can enable several users to operate the software simultaneously.

IMPLEMENTATION & POST-IMPLEMENTATION

Implementation & Post-implementation

Overall implementation Plan along with the proposed timelines Proposed implementation project organisation Implementation Project Organisation Structure along with Roles Resumes of proposed project manager and functional leads Expected core-team requirements from clients for the implementation of the proposed solution. The number and profile of people required along with their time commitments.

Customisation / Enhancements Approach to meeting the requirements identified as Customisation / Enhancement, effort estimate, timelines to complete development & testing.

System & User-acceptance testing approaches.

Data migration Data migration activities for all master information, transaction data from the current system(s) in an optimal and cost-efficient manner. Type of master and transaction data that requires migration. Standard templates for all the masters and opening balances that are required in the new system. Scripts & validations to ensure an automatic upload of data into the new system Proposed Training Core team and End-User training timetables and a synopsis of the training programs.
